

Why Lease?

Easy to understand benefits to help support you and your organization.

100% Cost Coverage

Soft costs such as destination charges, taxes, and other fees can be included in the financed amount.

Easier Budgeting

Since major expenses are included in one easy payment amount for the term you choose, budgeting the expense over the term of the financing is easier.

Conservation of Capital & Credit

With 100%-plus financing, you are free to spend cash on other items needed to grow your business and also keep available lines of credit open.

End-of-Term Options

With certain finance structures, you have the option to purchase or return with no further obligation, or continue to make payments on a month-to-month basis.

Flexible Payment Structures

Payment plans can be structured to meet your individual cash flow needs. Financing terms generally run from 24-84 months.

Hedge against Inflation

Payments remain the same over the life of the original agreement, no matter how much prices rise.

Room for Growth

Financing can provide the flexibility to add products at the time your business demands it.

Tax Benefits

You may be able to deduct monthly Lease payments on True Leases as an operating expense. We recommend you consult with your accountant or tax advisor.
